

## RARE 2-CARAT FANCY DEEP BLUISH GREEN DIAMOND DEBUTS

**May 1, 2016, New York, N.Y...**A rare 2.00-carat Natural Fancy Deep Bluish Green Diamond from The One and Only One™ collection is available by private appointment at selected fine jewelers nationwide. The cushion-cut green diamond, set in a ravishing platinum and diamond ring, is certified by the Gemological Institute of America (GIA). The price is available upon request.

The Fancy Deep Bluish Green Diamond is complemented by half-moon diamonds and surrounding diamonds totaling 1.27 carats.

“We’re calling this extraordinary diamond ‘Into the Deep,’” said Joe Padulo, CEO of Padulo Privé and a consultant to elite jewelers and luxury brands. “The combination of its vibrant Caribbean green color, clarity, and unusually large size for a green diamond make this a rare and outstanding investment opportunity.”

### **About Green Diamonds**

Green diamonds are among the rarest of all Fancy Color Diamonds. Unlike those diamonds which derive their colors from trace elements such as boron, nitrogen and hydrogen, green diamonds owe their color to millions of years of naturally occurring radiation beneath the ground.

According to the Natural Color Diamond Association (NCDIA), “Pure green diamonds are extremely rare and highly valued, ranging from light mint greens to vivid grass greens. Only a handful of natural green diamonds are introduced into the market each year making green diamonds some of the most sought after of all natural color diamonds.”

### **For Collectors, Investors and Connoisseurs**

In a September 2015 statement, Christie's International Head of Jewelry Rahul Kadakia described the market for Fancy Color Diamonds as "...a time when great gems are mirroring prices achieved for masterpieces in the world of fine art. Collectors are looking to jewels as savvy investments that are both beautiful and can appreciate considerably in value over a relatively short period of time."
