This ring’s one-of-a-kind shield design was inspired by a rare Natural Fancy Blue Marquise-shaped diamond. The Deco-style ring features Argyle Purplish Pink diamonds and white round diamonds and baguettes.

“This is the perfect stone for a first-time collector of Fancy Color Diamonds,” said Padulo.

This exotic Cushion-Cut Natural Fancy Intense Yellowish Green Diamond is beyond rare. According to the Natural Color Diamond Association (NCDIA), “Only a handful of natural green diamonds are introduced into the market each year making green diamonds some of the most sought after of all natural color diamonds.”

The Yellowish Green center stone is surrounded by a halo of 80 Argyle Pink diamonds.

The ultra-rare Cushion-Cut Fancy Greenish Blue Diamond is a mesmerizing aqua blue, “a color I’ve seen only once before in 25 years,” said Padulo.

Surrounded by a halo of Argyle Pink diamonds, “The Aqua Blue” is an important acquisition for connoisseurs of the extraordinary.
